Profile

Fullstack developer with experience in both frontend and backend, specializing in **React**, **Next.js**, **Node.js**, **TypeScript**, and **Tailwind CSS**. Passionate about building fast, scalable applications with clean design. I am skilled in **MVC architecture**, **OOP**, **REST APIs**, **SQL databases**, and **version control with Git/GitHub**. I am currently pursuing a **Programming degree at UTN**, combining academic training with hands-on experience in real-world projects.

Experience

Junior Frontend Developer – Pawtrics Software LLC (Remoto) | May 2023 – April 2024

- Developed 20+ reusable components using Next.js and React, implementing SSR/CSR.
- Designed and implemented a full CRUD system connected to PostgreSQL via Supabase.
- Created a modular design system using Material UI.
- Collaborated with an agile team using Git/GitHub with code review methodology in pull requests, reducing bugs.
